

**AMENDMENTS TO THE SPECIFICATION**

Please amend paragraph 69, as follows:

[0069] The term "computer-readable medium" as used herein refers to any medium that participates in providing instructions to the processor 904 for execution. Such a medium may take many forms, including but not limited to, non-volatile media, volatile media, and transmission media. Non-volatile media includes, for example, optical or magnetic disks, such as the storage device 910. Volatile media includes dynamic memory, such as the main memory 906. Transmission media includes coaxial cables, copper wire and fiber optics, including the wires that comprise the bus 902. ~~Transmission media can also take the form of acoustic or light waves, such as those generated during radio wave and infrared data communications.~~
